Often used as a retrofit replacement for conventional timber-framed windows...

Bevelled Casement Windows with PVC-U frames offer clean, angular style and eliminate the need for costly and time-consuming maintenance, only requiring an occasional wipe with soapy water and a drop of oil on the hinges.

Available in a variety of top and sidehung configurations, Bevelled Casement Windows from your local Network VEKA member boast the same, superior energy and acoustic-insulation ratings of The VEKA UK Group's other double and tripleglazed PVC-U window systems,

helping to minimise outdoor noise and significantly reducing your heating bills.

Bevelled Casement Windows provide a formidable barrier against intruders, featuring tough, reinforcement components, alongside steadfast multipoint locking mechanisms.

Naturally, all Bevelled Casement Windows come with the long-life, low-maintenance and insurance-backed guarantees you would expect from Network VEKA.
