A brief introduction to our timber/aluminium window and door ranges

Extended for 2012/13

our stunning door selection

When quality and style matter, Senior's range of external doors provides a stamp of individuality, letting you transform your house into a home.

Alongside our more traditional single, double and french door ranges Senior has recently introduced the new Hybrid sliding/folding, lift/slide and tilt/side doors, allowing you to add a true design statement to expand your living space into the garden.

Available in a range of configurations and sizes, Senior's door range provides an exceptionally robust and efficient suite of products that meet all performance and aesthetic requirements.

“ We were looking for a contemporary way to link the new extension with the countryside beyond, whilst retaining some context with the traditional building. The Hybrid aluminium and timber glazing system enabled us to produce a large glazed expanse with the internal finish in traditional oak and the external elevation in durable aluminium.

”

SENIOR **HYBRID** SYSTEMS™

Wood and aluminium in harmony...

It's the best of both worlds. Senior Hybrid Systems offers a range of windows and doors that combine the long life and low maintenance of aluminium on the outside with the high insulation, environmentally focused benefits of 100% PEFC accredited timber to the inside.

Designed, manufactured and supplied in the UK, Hybrid windows and doors are available in sizes and configurations to suit any specification and can be provided in various colours and finishes, making the range ideal for both new build and refurbishment projects.

Recent additions to the range include the stunning sliding/folding doors and lift/slide doors; products that truly open up the home and bring the outside inside.

Hybrid is here to help you create a stunning result, both inside and out.

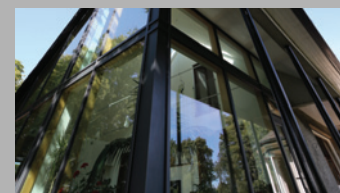

Colours and finishes

Choose from seven stunning exterior colours, to complement and bring out the best in any application. Internally, Hybrid can be specified in natural spruce, traditional oak or painted.

Window and door furniture

The final touch that can make all the difference. The range includes a wide selection of styles and types to choose from, everything from traditional through to contemporary.

Glazing options

Hybrid windows and doors can be specified in a choice of glazing options, including solar control, self-cleaning and many more. Please contact us to discuss your requirements on 0845 600 1412.
