Casement Windows with the Network VEKA difference...

Classic, elegant looks meet cutting-edge functionality with Sculptured Casement Windows

– a beautiful blend of style, high security and modern day energy-efficiency.

Sculptured Windows are the perfect solution for homeowners who want the benefits of a modern day PVC-U system with a softer, more curved and authentic 'timber' look than commonplace bevelled designs.

Great looks don't have to compromise performance or functionality.

Sculptured Windows' balanced curves and slender sightlines mirror the look of traditional timber frames, without the need for regular, costly and time-consuming maintenance.

These windows can be produced in a wide range of colours and woodgrain finishes, to enhance the look and feel of your home. Sculptured Windows are easily tailored to your design scheme and can complement both classical and contemporary architecture.

Tough reinforcement components alongside steadfast multi-point locking mechanisms help make Sculptured Windows a formidable barrier against intruders. Boasting the same, superior energy and acoustic-insulation ratings of The VEKA UK Group's other double and triple-glazed PVC-U window systems, Sculptured Windows from your local Network VEKA member can help to minimise outdoor noise and significantly reduce your heating bills.

Naturally, all Sculptured Windows come with the long-life, low-maintenance and Insurance-Backed Guarantees you would expect from Network VEKA.
